This issue is not dedicated to any politician, but is dedicated to the loyal subscribers who have paid their subscriptions during the damnest month in the year, August, which month is about gone.

As for politician observations, it might be said that Ford is losing ground fast in Grenada County. In 1938, just a bare two years ago, he received 623 votes while two opponents together received only 50, there is just beat Shortstaple about 2 to 1. In 1942, which will roll around 2 to 1, by 1942, which will roll around 2 to 1, a new horse will beat Ford about 2 to 1.

I did not have a single surprise in this of any other race, I managed to keep up my reputation for losing by having only one winner, Judge McGowan.

Grenada County broke a precedent when it gave Bilbo a majority. I must have done too good a job on Hugh here.

Rayburn got around 300 votes here. I will guarantee that not over 60 people in this county ever saw him. I will guarantee he can not call five men in Grenada County by their names. If he had just shaken hands with 60 more people here, he would have split the county with Ford.

To cap the climax and bust it wide open, KENDALL G. Rayburn was the man actually running, yet the people voted for KENNETH G. Rayburn, an entirely different person. In other words, Ford was so obnoxious to 300 voters that these 300 voters just voted for somebody who WAS NOT EVEN a candidate.

There was a mix-up somewhere in Jackson, for the Official Ballots came to the printers of this district with KENNETH G. Rayburn's name printed on them.

In view of the fact that KENDALL G. Rayburn paid his fees in good faith, the people should have had an opportunity of voting for or against the MAN WHO WAS RUNNING, not some unknown, unheard of man named KENNETH G. Rayburn.

The real candidate, KENDALL G. Rayburn, it seems to us, has a perfect legal and moral right to protest the election. Surely the Constitution of the United States, as well as the Constitution of the State of Mississippi gives a man the right and privilege of RUNNING IN HIS OWN NAME, especially when he has paid all his fees in good faith.

If anyone does not believe this, come around to our office and we will prove what we say.

Ford is losing ground mighty fast in the entire district. In 1938, he beat TWO men 885 to 3400 or about 3 to 1. He barely beat KENNETH G. Rayburn, who was not even a candidate, in other words a sort of ghost candidate, only about 2 to 1.

If we could just get the name of a man who was actually running on the ticket, we would have beaten Ford this time.

I am sort of scared to go to the Vets Hospital now because somebody will say Ford sent me there. After it is all over, and the truth will not hurt anyone, I can say that My Man Rayburn made a damn site better race than I thought he would.

I have enjoyed the summer. Thousands of people over the 4th Congressional District have had the tedium broken and dispelled by the GCW. Ford has seen some of his weak points exposed, and this may not have tickled him. I am thankful for Ford, for, otherwise, I would have spent a mighty dull, listless summer.

My fellow editors should thank me, for each one of them must have got about \$2000 from Ford last week, and that was \$30 plucked from the air. In fact, I think each one of those editors should give me 15 and 2 like they do other advertising agencies. If it had not been for me, they would have got nothing from Ford.

To show that I am a good sport, I am publishing FREE, as an editorial, the article that Ford paid you other fellows about \$30 each to publish.

Oh, well, THAT chapter is ended. Let's turn the page.

The nation is still piddling, fussing and prevaricating, and above all, politicking, while the European menace becomes more and more perceptible.

Earl Burkle, elegant entertainer and genuine gentleman, and that's about enough or \$150, recently renewed his allegiance to the GCW.

TO BILBO
The fight is over, our victory's won. Again we've honored our favorite son. A man that's fine and good and true. An inspiration to me and you. A moral man who loves the right. A fair contest his keen delight. Who speaks the truth and never lies. It mattered not how flowed the tide. If in his favor, all well and good. If for his foe, still there he stood. Just like some martyr of days gone by. He would rather be right than tell a lie. Yes, the nation's over and sweet's the pill. For again we've honored our dear Old Bill. So, come on up, I want you here. And we'll drink to Bill an' ice cold beer. —Anon

Fifty cents will deliver five copies for ten weeks to a reader. Contribute generously.

PATROL HEADQUARTERS HERE

There is a reliable, but unconfirmed report that a State Patrol unit composed of about ten men, under the command of Lt. Burns Tatum recently promoted, will be established in Grenada.

Thus Grenada Grows.

Some of the fellow snuff dippers must have layed down on their job, otherwise Ford would not have got the vote he did.

Power Company Sponsoring "Third Party" Meeting

Republicans and Democrats have had their conventions, nominated their candidates and are now actively in the field after votes.

Rumors of "third parties" have always been abundant, but the Grenada County Weekly learned from authoritative sources today that a third party will hold its convention in Grenada tomorrow, draw up a platform and nominate candidates.

But according to Mr. C. V. McKell, prominent businessman, and division manager for the Mississippi Power and Light Co., the third party is not a political party, so neither Mr. Roosevelt nor Mr. Winkle need worry about competition arising from the Grenada convention.

The third party, which holds its convention in the Barlow Hotel on Sept. 2nd, 7:30 p. m. tomorrow, is called the "Profit Party," and Manager McKell states that every gas and electric appliance dealer in this vicinity is invited to be a delegate to the meeting.

Republicans and Democrats are out after votes. Delegates of the Profit Party are launching a campaign to secure profits from the sale of more appliances. The platform will have nothing to do with the foreign situation, and it will not mention the AAA, the WPA or the NYA. It will be a platform of better living and better business for Mississippians through the use of more modern gas and electric appliances.

The Profit Party Convention, sponsored by the Mississippi Power and Light Co., appliance dealers, distributors, and manufacturers, will be typical convention style, with banners, standard bearers, loud speakers, a keynote address and nomination. It will be packed full of entertainment and sales plans that will mean extra profits for dealers.

Keynote speaker for the Profit Party convention will be Les M. Taylor, sales promotion and advertising manager of the power company.

That company's fall sales campaign, designed to bring greater profits to cooperating appliance dealers, will be presented by an interesting film. The convention will be opened with a dinner for all delegates.

After their chat, Governor Conner took time from his duties to treat the young man to ice cream.

Program Prepared for New Buildings Dedication

At 11 o'clock next Sunday, Sept. 1, 1940, an impressive cornerstone ceremony will mark the placing of that stone in the corner of the new house of worship of the congregation of the century-old First Baptist Church at McLean Point in this city. The entire service will require not more than half an hour, and loud speaker equipment will be used to insure that all may hear.

The building now being erected, a handsome brick church, costing over \$500,000, is the third one that has been used by this congregation. The one which was used fifty years and stood on the corner of Second and Main Streets burned last December. The public is most cordially invited to participate in the ceremonies, a complete program of which follows:

Ford, Bilbo, McGowan Are Easy Winners In Grenada County

Kendall G. Rayburn broke into an almost solid Ford county by carrying Pleasant Grove box by a vote of 10 to 3. In a county which gave Mr. Ford the incumbent majority of 4 congress, 13 to 1 in the 1938 primary, Rayburn of Pontotoc, reduced the lead to 3 to 1. That score, Rayburn 289, Ford 890.

Hugh L. White, Governor, and author of the TAWL bill, which prohibited this community to enjoy the presence of Mississippi's outstanding industry, also carried Pleasant Grove 38 to 1 and edged out majorities in both "cotton" boxes and at The Plant, but lost the county by a vote of 672 to 940.

Judge James G. McGowan lost only one box in the county in his race to succeed himself in the supreme bench that has held 43 men. And the score was McGowan 76, Montgomery 16. The county gave McGowan 799, Montgomery 289.

As reflected in these columns last week, the vote tally exceeded 1200. There was heavy runoff in this off-year race and this tally was particularly evident in the county boxes. For example, Holcomb, the county's second box, with a potential voting strength of 400 voted only 140 votes.

Two boxes, Penridge in Beat Four and Mr. Nelo in Beat Three, went solid for Senator Bilbo. Gore Springs gave White 17, Bilbo 15.

A Pitiful Answer

The following advertisement, signed by A. L. Ford, appeared in every newspaper in the 4th Congressional District with one notable exception—last week and constitutes what Ford chooses to call "Know The Truth". In this signed statement, Ford does not deny any of the many charges made by this newspaper and by Rayburn, his opponent. His language is sort of vague, but we interpret it to mean that Whitaker is an "ingrate". Just how Whitaker could be considered an "ingrate" by Ford is beyond our comprehension for Ford never did anything for Whitaker except give him a dirty deal in the post office matter. Ford called the editor of this newspaper "some big editor", but we told him to that title to visit our office. It was somewhat a coincidence that while Ford was plastering this district with his advertisement setting forth his claim of appointing the "big man" our paper of last week was also being widely scattered over this district, and our issue carried on its front page what the Civil Service Commission, not Long-staple Post, said about the matter.

It started out in 1939 hiding behind Pat Harrison, but we note that he now assumes full responsibility, and has enough guts to stand on his own feet with magnanimity from Pat Harrison.

Ford did not charge us with lying, for he knew we had told the unvarnished truth. The worst he said was that we were "disorderly", which means:

"If we did nothing else in our district against Ford, we caused temporary prosperity among our fellow newspaper publishers, each of whom must have received about \$2,000 from Ford last week, even if we did not get any of the gravy for ourselves. If we did not get any, we got large payoffs of Ford's tough hide."

We are going to publish what Ford said FREE OF ALL CHARGES, for it bolsters up our charge of his unfitness of office far better than we have been able to do in eight weeks of effort. It is about as weak an effort as we have ever seen. If that's his best logic, and if he were fooling us in a criminal case, we would ask the mercy of the court and plead guilty.

Here's his only effort which cost him about \$300 to send to the voters of this district and which we gladly publish free.

KNOW THE TRUTH

To The People Of The Fourth Congressional District

This session of Congress has been the most important one since the World War Congresses. I have felt it my duty to remain in Washington to protect your interests and that of our Nation, and have left my campaign in the hands of my friends. The results and efforts of my friends have been most gratifying as reports come in from all sections of the District. The only opposition that I am able to find is coming from a few disappointed individuals for jobs and from a few people I have helped and could help no more. They became ingrates. One in particular is a W. W. Whitaker, an applicant for the postmastership appointment at Grenada, Mississippi. I recommended the appointment of a real friend who stood number one on the eligible list and who is a World War veteran.

This man Whitaker recently admitted he did not vote for me in my first race for Congress. Yet when the best job in the county came open, he thought he should have it in preference to a friend who had stood by me at all times. Never can it be said that I will turn my back on a friend to help an enemy. Nor will I ever show my ingratitude as has my opponent. Out of the friendship for his father, I gave him a job in Washington for approximately four years, trying to help him secure an education. You can see how ungrateful he is and Mr. Whitaker, who admits he has a sore toe, is trying to help him through the Grenada County Weekly.

In one of the recent issues of the Grenada County Weekly Mr. Whitaker said that I show no consideration for the farmers and that I was off on a pleasure trip when a delegation came to Washington to seek relief for farmers on account of crop failures in this District. Last year when farmers in my District had a crop failure, I met several groups of farmers at my office in Ackerman and elsewhere in the District, and also attended a district meeting of farmers at West Point. Congressman Rankin was also present at this District meeting and we, along with our two U. S. Senators and other Members of the House of Representatives, urged every department of the Government to give relief. Some relief was given. Immediately after the Democratic Convention in Chicago this year, to

which I was sent by the people of the District as a delegate, I returned to Washington and together with Congressman Rankin held conferences with the heads of the Agricultural Department, the Surplus Commodities Corporation, the Farm Security Administration and the Works Progress Administration urging them to again aid the stricken farmers in this area. They promised immediate aid by increasing the surplus commodities and by making sufficient loans and grants to those in need. This was promised Congressman Rankin and me before the delegation sent by the farmers ever left Mississippi to go to Washington. And these are the only promises the delegation received when they were in Washington.

When the S. S. American, which will play a vital part in our National Defense, was launched I, along with a large number of Congressmen and Senators were invited to inspect it on a short trip from Newport News, Virginia to New York City. I accepted this invitation so that I might get first hand knowledge of what the taxpayers are actually receiving for the large sums of money we are appropriating for National Defense and I had left Washington before the telegram advising me of the plans of the delegation. I got in touch with Mr. Ned Lee of Eupora, the only delegate from my District, as soon as I returned to Washington from the inspection trip and asked him if there was anything that I could do to assist in any further conferences they might care to hold.

The Grenada County Weekly articles are being reprinted in the other papers as paid political advertisements and are being printed in circular form and distributed throughout the District. If you see a circular or a newspaper article, look and see that it is a reprint from the Grenada County Weekly and you will know that it is composed of distorted facts and justified propaganda coming from the pen of a sore toe editor and being distributed by an opponent who is ungrateful for what I did for him.

I have always had the interest of the Farmers at heart and have never cast a vote against their interest. I voted for the Agricultural Adjustment Act after first seeking the adoption of an amendment that would have given the so-called hill farmers the same percentage of cotton acreage that the so-called Delta Farmers would receive. I voted for parity payments. I voted for annual appropriations to pay AAA benefits and soil conservation benefits, rural electrification and farm-to-market roads. No member of Congress can point to a better record for the Farmers. Yet, this newspaper editor and my opponent would like to lead you to believe that I have done nothing for them.

This statement is far too lengthy but I want you to know all the facts so that you can reach a proper decision as to how you should vote.

I am grateful to you for your support in the past. I have never shirked a duty or betrayed a trust. I have, on every occasion, fought for the interest of my District and shall continue to do so if you return me to Congress for the next two years. I urge you to go to the polls next Tuesday and vote for me and ask your friends to do so.

Thanking you for what you have done for me in my absence and for what you may do for me next Tuesday, I am,

Sincerely your friend,

A. L. FORD.

Mississippi Leads

During the year 1939-1940, the latest period for which statistics are available, the State of Mississippi lead the other 47 states in the increase in the number of passenger cars registered. 13.4 percent more cars were registered in Mississippi during 1939 than during 1938.

Education

A six-year-old girl submitted the following composition on "People" to her teacher.

"People are composed of girls and boys, also men and women.
"Boys are no good at all until they grow up and get married.
"Men who don't get married are no good either.
"Boys are an awful bother. They want everything they see except soap."

My ma is a woman, and my pa is a man. A woman is a grown-up girl with children.
My pa is such a nice man that I think he must have been a girl when he was a boy."

Thus Grenada Grows

Thus Grenada grows.

Dave Williams' turnip patch should be getting ready to harvest by now.

The WPAers are about to finish the court house job. It looks real nice.

Our master politician, Ed Underwood, renewed by virtue of a check from his better two thirds.

Comparing the Duck Hill news in the Grenada County Weekly with the Grenada news in the Commercial Appeal, an unbiased person would conclude that Duck Hill was ten times the size of Grenada.

CARD OF THANKS

Dear Mr. Editor:

I wish to thank the good friends, who remembered my eightieth birthday with flowers, congratulations, and a gorgeous birthday cake with eighty candles. The same friends brightened dark days in the hospital, and made our Golden Wedding Day more golden. You, Mr. Editor, I thank for the many courtesies shown me through your good Grenada County Weekly. It is worth living eighty years, in this torn world, to find such faithful friend at the sunset of life.

Most sincerely,
MRS. W. S. VAN OSDEL

I think that Editor Povall and his fine staff, who publish the century-old Lexington Advertiser, deserve a good word for they put out more real community news than any newspaper in the state. Set in seven-point type, they seldom publish less than ten pages, all of which is directly concerned with Holmes County people and Holmes County events.

They say Preacher Thrower turned the air on the Devil Sunday.

Architect's Story of Grenada Hospital's New Annex

The addition to the Grenada Hospital is a unit that makes the present Grenada Hospital on a par with the best in North Mississippi. When the plans were first conceived, they were thoroughly studied, Dr. J. K. Axtell and Dr. F. S. Hill went into the matter very seriously, as to what was the absolute need of the present building, without going into any excess cost. The present building consisted in portions of the Kitchen and Dining Room service. In order to give the patients good service at all times, the Kitchen, Dining Room and Pantry had to be expanded. Also, we had to place in a dumb-waiter in the Kitchen to the second floor, so that all meals being served would be hot at all times.

The following is what was placed in, at the request of Dr. Hill and Dr. Axtell:

We made the Kitchen larger, placing in Kitchen cabinets with extra Kitchen Pantry with built in bin for food and built in cabinets for other food, such as preserves. Therefore, separating the storage of food away from the Kitchen, making a situation much more up-to-date, efficient and sanitary. The Pantry was added in order to keep the service from the Kitchen and Nurses separated.

The Nurses' Dining Room was made larger to serve the capacity of the present staff. A screen porch was added on the side of the building, going back to the negro ward. In the back was placed a negro patient's room. The operating room was expanded by placing a partition in the corridor, and making one of the private rooms into a nursery and emergency room.

On the second floor was placed a dumb-waiter and cabinets were placed for the storage of linens. All the present rooms have shut doors, so that the air may pass, while the door is closed. A window was placed between the office and the waiting room, so that visitors may be given quick and accurate service before entering the building. With these repairs to the present building, the building has become up-to-date, more efficient with the spirit of giving more and better service for both white and negro patients. Nothing was left undone in the repair work that was necessary to give good service.

A new addition was built on to the building because of the necessity of more private rooms, which the old building did not have. There has been added eleven (11) private rooms with all up-to-date facilities such as radio outlet, telephone outlet, push button to annunciator at Nurse's Desk for service calls, and convenient outlets for any other electrical apparatus that may be desired in the rooms. The rooms have plastered walls and ceilings with linoleum floor. The doors are shut doors, 3 feet wide, so that all wheel chairs or any other hospital apparatus may pass through same. On this same door is a shut door for summer use, such as mentioned above for the doors of the present building. Containing four (4) of these rooms are private the bath, with modern facilities in plumbing. The tile is two foot high, in order that it may be kept clean at all times.

The eleven (11) new private rooms are supplied with an exhaust fan. This fan has ample ventilation and a quiet tone. This new addition is separated from all the old building by a door that keeps the ventilation of this fan to these quarters, only. There is an entrance in the end of the building that has a ramp for wheel chairs and other hospital apparatus, so that they can be brought into the hospital without any lifting. The building also has an entrance at the side that has apparatus for an ambulance to roll any stretcher into the building without any lifting.

Welcome!
to
The City Beautiful

Listed this week as new citizens of Grenada by the Lions Club Welcoming Committee and the G. W. are the following:

Mr. and Mrs. G. W. Pantzler and 2 children, formerly of Winona, now living at the Taylor Apartment on Oak Street. Mr. Pantzler is employed by Oliver Lilly.

Mr. and Mrs. W. L. Mosier and two children, formerly of Corinth, and now having an apartment in the Calhoun home on Main Street. Mr. Mosier is with the State Highway Department.

Mr. and Mrs. T. P. Pullman and 3 children, formerly of Oxford, and now living on Tordar Street. Mr. Pullman is clerk at the I. C. Depot.

Mr. and Mrs. Stanley S. Owen, formerly of Yazoo City, now living at the Baker home on Main Street. Mr. Owen is assistant county agent.

Week by week, this newspaper lists our new citizens four at a time. Any old looking to making this list complete will be appreciated.

One of the smartest features of this hospital is the tile bedpan room on the first and second floors, of the new addition. This automatic sterilizer is one of the most modern hospital equipments that money can buy. It enables the nurses to sterilize and clean a bedpan with ease and without any odor, etc., left behind. The sterilizing equipment that has been added to the building besides the bedpan sterilizer is the sterilizing dishwasher, which sterilizes dishes, silverware, etc., used in connection with the hospital, and the patients can be assured that everything is kept clean and sterilized throughout the building.

The modern addition has sound-proof corridors, with prefabricated insulated ceiling, so that everything in this portion of the building is kept very quiet. This addition is as good or better than any other hospital in the State of Mississippi. It has every modern convenience that money can buy; nothing has been left out that could make the building up-to-date.

The present boiler room has been fully equipped with a new water heater, for the sterilizing equipment named above. The rooms in the new addition have connection type heat. These radiators are set in the wall with about a 1 foot protection and are not in the way or unsightly. The new addition will be heated from the same boiler as the old, but with much more efficiency.

The wiring for the new building is in every way modern. The entrance switch for both the new and old building has been made ample size for the voltage that they will carry.

As architect on this building, I am very proud to say that the addition to this hospital is the best addition to a building that I have ever done, and it is an advantage to live in a vicinity of this building. I want to take this opportunity to thank City Lumber Co. for their cooperation and fine work, including the general contract work. I also want to thank Oak Hardware Co. for their nice work on the plumbing and heating. This job is installed as good if not better than any job I have seen in the State of Mississippi. Last but not least I want to thank Dr. Axtell and Dr. Hill for their full cooperation in the work throughout the project, and for placing this new addition to the present building.

Everything has been pretty quiet in Holcomb lately. Preacher Bailey must have a good influence on them.

It looks like our old buddy, Jim Lamb, is feeling badly here lately. Jim is a fine character.

Seen, Heard and Told

Dr. Bailey has pulled a good many Whitaker teeth in the past few years, but we pulled Doc's leg for \$1.50 recently.

We understand that Walter Doty has taken hold of the farming reins relinquished by his late father and is making a good job of it.

Our old wartime friend, Cecil Jacks, who used a bushel of CCC pills and several barrels of iodine on ailing soldiers in the First World War, was a prompt renewer. He says Uncle Orle Taylor is figuring on subscribing as soon as he gets some seed money.

Farmer Will Ed Boushie, ex county tax assessor, in town briefly recently, reported that he had the best crop in his experience.

Thanks to those who were kind enough to phone in names of new citizens.

Sister Lockett, as usual, was very prompt in renewing her subscription.

Sister Thompson, another prompt renewer, failed not this year either.

Our advertisers reaped fine pickings during the 8 week blitzkrieg now ended, for the Grenada County Weekly was spread far and wide over the 4th Congressional District.

The next time you are in Memphis go out to the zoo and see the Zoom Bee Bird. It flies 100 miles an hour backwards. It doesn't give a damn where it is going. It is only interested in where it has been.

Speaking of Memphis reminds me of Sunday night when Shot Hill and I went up to "Mr. Crump" city. We found two sisters and indeed you they are beautiful sisters! I went with us, the former and present Miss Semmell. When it comes to knowing good looking girls Shot has no peer.

Somewhere visited somebody here in Grenada this week. I'm afraid to call his name.

We recall the following, please take heed! September is the month that children throughout the nation start back to school. When you come to a sign reading "School Zone Drive With Care" heed this warning. With all the young ones on the streets it is urgent that motorists drive with extreme caution to avoid accidents. Young, sweet and pure lives so often are snuffed out because of one moment's carelessness.

Tuesday down in Mexico was finished off with a pink axe now if some one could or would chop into Herr Hitler's head with an axe every thing would be lively for the time being, until some reformer could slip a sililo under Mussolini's short ribs. Let the good work proceed systematically. (Shout) Standard.

Mrs. S. H. Horton, Mrs. Rice, Lawrence, Miss Mary Lou Brown, Mr. J. B. Horn, Waring Taylor and I held the election over in West Ward, Tuesday. The election was carried out fair and square. If for no other reason, than we all had pretty different ideas of whom should be elected.

There is no reason why we should not, and every reason why we should, conscript men for the army. Look at France! She was not prepared.

I, S. Army experts say that we, in order to raise an army large enough to meet the threat, must rely on the selective service method, and not the voluntary enlistment method.

About 200 votes were cast in the Democratic primary last summer. About one-half that amount was cast in Grenada county this week. To be correct 1990 went in the polls. Note: We predicted 1200 two weeks ago.

Alonso Billis is as proud of his Death Signal as a monkey is over his first banana. Of course, we don't blame him for it is well worth being proud of. Mr. Covington one of the Illinois Central last electrical engineers, said the signal was better than some he had seen that cost 5 times as much.

McCune Talbot and his boys are repairing the street around the square for a new coat of tar. The workers might get in a better place some day, but not while they are on earth.

US Episcopalians had a big picnic swimming party out at John Weir's lake Wednesday. Young and old alike had a big time. Incidentally, you can't beat the cooking of an Episcopalian.

And it not be to the advantage of you to cease publication if he could get a fat job in a powder plant?

These defeated candidates will have something to talk about for the next few weeks. They will tell the reasons why they were defeated; the intruders and crooked things that elected their opponents. And other things that were done to beat them, but the real reason that they were beaten is: They didn't get enough votes.

The candidates in America are elected by ballots. In most other lands they go in office by the use of bullets. Which do you prefer?

We are going to see Jack Townes, the wide awake Firestone dealer, who is going to put some life in a comparatively dead store, for alienating the affections of our "Overseer" George Terrell. Jack must be paying "Nancy" about 50 cents—which isn't much more than we are paying him.

Cliff Bailey and his henchmen are going to "give" a dance Tuesday night. All are invited, that is, if you have 25 cents.

The Junior Chamber of Commerce had a fish supper Tuesday night. President "Choppy" Andrews did not turn one or two fish and a loaf of bread into enough required to fill the immense crowd—two catfish, in a hollow log, several years ago, made this possible.

Edgar Brunson and Kenneth Youngblood are going out for football at Cornish-Lincoln College. Hope those two name make the team.

WOMAN'S SOCIETY OF CHRISTIAN SERVICE

Methodist Church women all over America are faced with a change, not of their duties, but with reorganization of their Woman's Missionary Society. Under the unification plan, their great auxiliary will be called Woman's Society of Christian Service.

The new title is beautifully expressive and it is our hope that it will not be reduced to capital letter of W. S. of C. S.

Here in Grenada, Mrs. C. C. Waterman, president, has designated Monday, Sept. 2, as the day for election of officers. Church women of Methodist faith are urged to be present.
